

Kae Benton

Full Stack Web Developer

Greenville, SC | 864.421.4593 | sonja.k.benton@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SKILLS

JavaScript | React | Redux | NodeJS | Express | SQL | REST APIs | CSS/SASS | HTML | Python | Git

PROJECTS

Back End Developer [GitHub](#) | [Trello](#) | [Whimsical](#)

Family Promise - An app for streamlining the intake process of guests into the Spokane, WA community shelter.

React | Redux | NodeJS | Express | Heroku | Trello | Whimsical

- Collaborated remotely on a cross-functional team of 10 to integrate functionality of a digital form with a 4 week deadline
- Designed a systematic engineering document of user stories, flow diagrams, wireframes, and an architectural diagram
- Refined backend codebase by implementing new features and solved technical problems related to the database
- Solved problems in existing codebase to meet the needs and requests of the stakeholder in achieving MVP goals

Front End Developer [GitHub](#) | [Live Site](#) | [Whimsical](#)

HomeSpace Shop - A developing eCommerce site displaying products for the home.

Gatsby | GraphQL | React | Styled-Components | Netlify

- Designed the interface by utilizing Whimsical to create wireframes
- Built reusable components with individual styling
- Displayed data dynamically using GraphQL

Back End Developer [GitHub](#)

School Project REST API - An API source allowing for CRUD functionality on school projects.

NodeJS | Express | MySQL | Knex

- Implemented CRUD endpoints for adding, updating, or removing projects
- Built proper routing to respective endpoints
- Created seed data for initial testing
